

Hill-Rom® 900 Elite bed

Improve safety. Simplify tasks.

Features and benefits

The **lowering of the split siderails** can be activated **using one hand** and feature a smooth, rapid self-lowering mechanism allowing for quick access to patients

Stable support is provided during bed exit via an **ergonomically-placed side egress grip handle**

Intuitive bed controls require minimal in-service staff training and help minimise the risk of user's error

One-Touch Side Egress positions the bed for safer and easier bed exit

AutoContour™ and SlideGuard™ minimise patient migration in bed, reducing abdominal compression during bed articulation

EasyChair™ and flat position function offers patients the ability to quickly reach a comfortable seated position

Low height indicator warns the caregiver if the bed is not in the lowest position, contributing to a safer patient environment

5th castor facilitates easier bed transport in any direction

One-Touch Shock positioning flattens the upper deck and places the bed into a Trendelenburg position, should patient complications occur

Intelligent night light enhances operational safety for both patients and caregivers

Alerts caregivers of potential bed exit via the **3-Mode Bed Exit Alarm**, available with remote monitoring capabilities*

* Option available in selected markets
